

§ 30.706 How are the maximum fees defined?

For professional medical services, OWCP shall maintain a schedule of maximum allowable fees for procedures performed in a given locality. The schedule shall consist of: an assignment of a value to procedures identified by HCPCS/CPT code which represents the relative skill, effort, risk and time required to perform the procedure, as compared to other procedures of the same general class; an index based on a relative value scale that considers skill, labor, overhead, malpractice insurance and other related costs; and a monetary value assignment (conversion factor) for one unit of value in each of the categories of service.

§ 30.707 How are payments for particular services calculated?

Payment for a procedure identified by a HCPCS/CPT code shall not exceed the amount derived by multiplying the relative values for that procedure by the geographic indices for services in that area and by the dollar amount assigned to one unit in that category of service.

(a) The "locality" which serves as a basis for the determination of average cost is defined by the Bureau of Census Metropolitan Statistical Areas. OWCP shall base the determination of the relative per capita cost of medical care in a locality using information about enrollment and medical cost per county, provided by the Health Care Financing Administration (HCFA).

(b) OWCP shall assign the relative value units (RVUs) published by HCFA to all services for which HCFA has made assignments, using the most recent revision. Where there are no RVUs assigned to a procedure, OWCP may develop and assign any RVUs considered appropriate. The geographic adjustment factor shall be that designated by Geographic Practice Cost Indices for Metropolitan Statistical Areas as devised for HCFA and as updated or revised by HCFA from time to time. OWCP will devise conversion factors for each category of service, and in doing so may adapt HCFA conversion factors as appropriate using OWCP's

processing experience and internal data.

(c) For example, if the unit values for a particular surgical procedure are 2.48 for physician's work (W), 3.63 for practice expense (PE), and 0.48 for malpractice insurance (M), and the dollar value assigned to one unit in that category of service (surgery) is \$61.20, then the maximum allowable charge for one performance of that procedure is the product of the three RVUs times the corresponding geographical indices for the locality times the conversion factor. If the geographic indices for the locality are 0.988(W), 0.948 (PE), and 1.174 (M), then the maximum payment calculation is:

$$\begin{aligned} & [(2.48)(0.988) + (3.63)(0.948) + (0.48)(1.174)] \\ & \quad \times \$61.20 \\ & [2.45 + 3.44 + .56] \times \$61.20 \\ & 6.45 \times \$61.20 = \$394.74 \end{aligned}$$

§ 30.708 Does the fee schedule apply to every kind of procedure?

Where the time, effort and skill required to perform a particular procedure vary widely from one occasion to the next, OWCP may choose not to assign a relative value to that procedure. In this case the allowable charge for the procedure will be set individually based on consideration of a detailed medical report and other evidence. At its discretion, OWCP may set fees without regard to schedule limits for specially authorized consultant examinations, for directed medical examinations, and for other specially authorized services.

§ 30.709 How are payments for medicinal drugs determined?

Payment for medicinal drugs prescribed by physicians shall not exceed the amount derived by multiplying the average wholesale price of the medication by the quantity or amount provided, plus a dispensing fee.

(a) All prescription medications identified by National Drug Code (NDC) will be assigned an average wholesale price representing the product's nationally recognized wholesale price as determined by surveys of manufacturers and wholesalers. OWCP will establish the dispensing fee.

(b) The NDCs, the average wholesale prices, and the dispensing fee shall be

§ 30.710

20 CFR Ch. I (4–1–02 Edition)

reviewed from time to time and updated as necessary.

§ 30.710 How are payments for inpatient medical services determined?

(a) OWCP will pay for inpatient medical services according to pre-determined, condition-specific rates based on the Prospective Payment System (PPS) devised by HCFA (42 CFR parts 412, 413, 424, 485, and 489). Using this system, payment is derived by multiplying the diagnosis-related group (DRG) weight assigned to the hospital discharge by the provider-specific factors.

(1) All hospital discharges will be classified according to the DRGs prescribed by the HCFA in the form of the DRG Grouper software program. On this list, each DRG represents the average resources necessary to provide care in a case in that DRG relative to the national average of resources consumed per case.

(2) The provider-specific factors will be provided by HCFA in the form of their PPS Pricer software program. The software takes into consideration the type of facility, census division, actual geographic location (MSA) of the hospital, case mix cost per discharge, number of hospital beds, intern/beds ratio, operating cost to charge ratio, and other factors used by HCFA to determine the specific rate for a hospital discharge under their PPS. OWCP may devise price adjustment factors as appropriate using OWCP's processing experience and internal data.

(3) OWCP will base payments to facilities excluded from HCFA's PPS on consideration of detailed medical reports and other evidence.

(4) OWCP shall review the pre-determined hospital rates at least once a year, and may adjust any or all components when OWCP deems it necessary or appropriate.

(b) OWCP shall review the schedule of fees at least once a year, and may adjust the schedule or any of its components when OWCP deems it necessary or appropriate.

§ 30.711 When and how are fees reduced?

(a) OWCP shall accept a provider's designation of the code to identify a

billed procedure or service if the code is consistent with medical reports and other evidence. Where no code is supplied, OWCP may determine the code based on the narrative description of the procedure on the billing form and in associated medical reports. OWCP will pay no more than the maximum allowable fee for that procedure.

(b) If the charge submitted for a service supplied to an employee exceeds the maximum amount determined to be reasonable according to the schedule, OWCP shall pay the amount allowed by the schedule for that service and shall notify the provider in writing that payment was reduced for that service in accordance with the schedule. OWCP shall also notify the provider of the method for requesting reconsideration of the balance of the charge.

§ 30.712 If OWCP reduces a fee, may a provider request reconsideration of the reduction?

(a) A physician or other provider whose charge for service is only partially paid because it exceeds a maximum allowable amount set by OWCP may, within 30 days, request reconsideration of the fee determination.

(1) The provider should make such a request to the district office with jurisdiction over the employee's claim. The request must be accompanied by documentary evidence that the procedure performed was incorrectly identified by the original code, that the presence of a severe or concomitant medical condition made treatment especially difficult, or that the provider possessed unusual qualifications. In itself, board certification in a specialty is not sufficient evidence of unusual qualifications to justify an exception. These are the only three circumstances that will justify reevaluation of the paid amount.

(2) A list of district offices and their respective areas of jurisdiction is available upon request from the U.S. Department of Labor, Office of Workers' Compensation Programs, Washington, DC 20210, or from OWCP's home page on the Internet at www.dol.gov/dol/esa/public/owcp_org.htm. Within 30 days of receiving the request for reconsideration, the district office shall respond in writing stating whether or not an
